SUMMARY

Accomplished software developer specializing in mobile application development with Flutter, having successfully developed over 15+ mobile apps and contributed to more than 25 machine learning projects. Currently engaged in advanced research for my thesis on large language models, demonstrating a deep commitment to cutting-edge technology. Experienced as a lecturer and graphic designer as well. I bring an innovative approach to the tech field, combining practical application with academic research.

WORK EXPERIENCE

Researcher, Capble IZBA - (Remote - Part time) **Sept 2022 - Jan 2024**

- Worked as researcher for Fulfillment Centers Data all over the world
